

OHIO STATE CHINA GATEWAY

PORTFOLIO

THE OHIO STATE UNIVERSITY

OFFICE OF INTERNATIONAL AFFAIRS

COLLABORATE WITH THE CHINA GATEWAY

There are a myriad of opportunities to partner and collaborate in China. The Ohio State China Gateway can help facilitate the following:

- Student Opportunities
- Research Collaborations
- Faculty Support
- Events

STUDENT OPPORTUNITIES

RECRUITMENT

The China Gateway supports Ohio State's undergraduate and graduate recruitment efforts by attending events such as EducationUSA College Fair and American Universities China Association (AUCA) college fairs and by working with affiliated agencies in China through targeted collaborations.

FISHER COLLEGE OF BUSINESS OPERATIONS GLOBAL LAB

China remains a top exporter of manufactured goods and a major demand center. After students complete their one-credit spring semester course on campus, they travel to Hong Kong, Shanghai and Beijing to better understand how companies are adapting and innovating their operations strategy to ensure the success of their global investment.

FISHER COLLEGE OF BUSINESS GLOBAL APPLIED PROJECTS

The Global Applied Projects program is an opportunity for Fisher College of Business MBA students to gain international experience by working on real world business challenges in global locations for Fisher corporate partners and project sponsors. The Global Applied Projects combines a spring semester, second session international consulting/project management course and a three-week May term in-country, immersive living and work experience.

CAREER SERVICES

Ohio State has more than 200 undergraduate majors and 280 graduate and professional programs that help shape students with a wide range of interests and skills. Approximately 68,000 students attend Ohio State which makes it easy for companies, nonprofits and government offices to find students with skill sets to match their needs. The China Gateway has established a career resource center that extends career services beyond the United States. The service center aims to assist Ohio State students and alumni in exploring career opportunities in China and better engage corporate partners for multifaceted collaborations.

RESEARCH COLLABORATIONS

The China Gateway strategically connects exceptional talent and resources at Ohio State to corporations and organizations in Greater China, facilitating academia-industry commercialization procedure.

FACULTY SUPPORT

Faculty engagement, fostering existing partnerships and facilitating new opportunities to collaborate are key initiatives for the China Gateway. We support Ohio State faculty who visit China for academic conferences, lectures, partnerships opportunities, meeting with university faculty, conducting field work and leading education abroad programs in many ways including travel logistics, event and meeting planning, accommodation recommendations and serving as interpreters in their meetings with partners in China.

EVENTS

The Ohio State China Gateway and Ohio State's colleges and departments are interested in hosting events alongside partners in China. Building on the full strength of Ohio State's teaching and research, we have partnered for conferences, forums and workshops in a variety of areas.

PROJECT SPOTLIGHTS

PAN-ASIA FORUM

The Ohio State Pan-Asia Forum is held in China celebrating the extensive history of collaboration between Ohio State and China, as well as the Pan-Asia region. Researchers, industry leaders and academic experts from Ohio State and around the world come together to share information and knowledge on emerging topics and forward-looking themes. The forum highlights the unique strengths in interdisciplinary research and education.

This program was initiated in 2018 by the Ohio State China Gateway office with assistance from the College of Engineering, Center for Automotive Research, Office of Advancement and Office of International Affairs.

"I just wanted take a moment to thank you for all your support during my trip and to congratulate you on an excellent event. Please pass my sincere thanks and compliments to your whole team. I really enjoyed taking part in the forum and traveling to Shanghai. I hope our paths will cross again soon."

– David Cooke, Assistant Director of Research Operations, Center for Automotive Research

PRE-DEPARTURE ORIENTATION

Since 2012, the China Gateway has initiated, coordinated and facilitated a Pre-Departure Orientation (PDO) program in partnership with Offices of International Affairs, Student Life, and Student Academic Success. After six years, the PDO has become a large-scale event that ranks high among U.S. universities and receives broad attention from incoming students, parents, alumni, university administrators and educational peers. In 2019, 350 students and 350 parents attended four sessions offered in Beijing and Shanghai.

“Ohio State is Great! PDO is meaningful and it gives us ways to involve!”

“Thank you for providing kindly advice. That’s useful.”

“I learned a lot from PDO. Good!”

“PDO have provided all details that I need.”

–participant submitted comments from the 2019 PDO Family Survey

CHINA CAREER FAIR

The China Career Fair provides a platform to connect employers with Ohio State students and alumni directly since 2016. In collaboration with dozens of prestigious U.S. Universities’ China Offices from American Universities’ China Association (AUCA) and more than 100 corporate partners, the China Gateway not only brings benefits to our students, but also improve Ohio State’s brand as a global university.

“China has many fine universities; however, the Chinese students who study in the United States have a competitive edge over their peers because they gain a deeper understanding of U.S. business practices, stronger English language skills and enhanced culture awareness. These skills are very appealing to multinational firms with operations in China as well as Chinese-based companies that conduct business in America and other English-speaking countries around the globe.”

– Jeff Rice, executive director of Fisher’s Office of Career Management

OUR PARTNERS IN CHINA

ACADEMIA

- Beijing Foreign Studies University
- Beijing Jiaotong University Law School
- Beijing Normal University

EXPLORE THE POSSIBILITIES

THE OHIO STATE UNIVERSITY

The Ohio State University's campus in Columbus, Ohio has been the stage for academic achievement and a laboratory for innovation since its founding in 1870. The university's main campus is one of America's largest and most comprehensive. As Ohio's best and one of the nation's top-20 public universities, Ohio State is further recognized by a top-rated academic medical center and a premier cancer hospital and research center.

CHINA GATEWAY

Ohio State opened Global Gateways in Shanghai, China (2010), Mumbai, India (2012) and São Paulo, Brazil (2014) for Ohio State to foster connections and facilitate opportunities for students, researchers, alumni and partners. The China Gateway builds upon Ohio State's long-standing partnerships and strategic engagement with China.
