I. INTRODUCTION

With the goal of internationalizing Ohio State's comprehensive range of activities in research, education and engagement, the Office of International Affairs (OIA) partners with Ohio State academic units to develop and manage a wide array of international collaborations. Agreements range from a general Memoranda of Understanding (MOU) to more specific joint efforts, which are formalized as Memoranda of Agreement (MOA), Student Exchange Agreements (SEA), International Dual Degrees, and International Collaborative Degree programs.

The Office of International Affairs facilitates the development of formal international agreements, which are driven by Ohio State faculty, deliver specific mutually agreed upon outcomes, and serve to enhance and further the university's strategic international goals.

This annual report documents international agreements that have been established in the period **January 1, 2017** to **December 31, 2017**. The report organizes the data by type of agreement, college or university office and world region. Charts and graphs are included when appropriate for easy visual comparison of data across years.

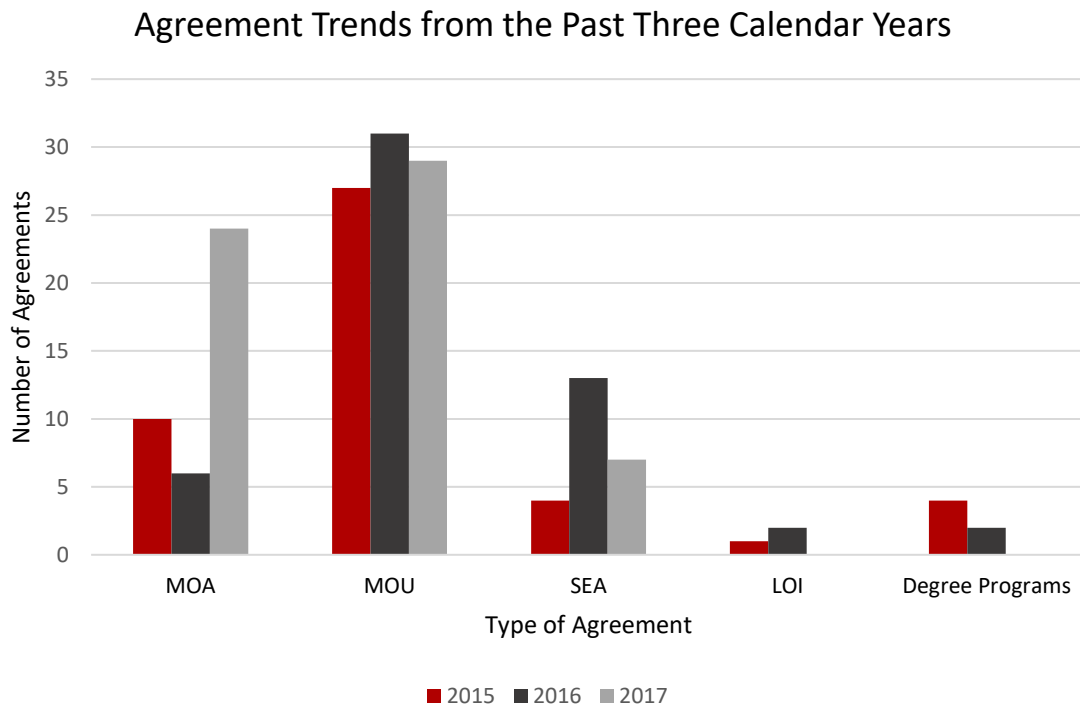

II. AGREEMENTS ESTABLISHED IN 2017 BY TYPE OF AGREEMENT

This section shows all agreements established during the 2017 calendar year, sorted by type of agreement. In 2017, Ohio State established a total of **60** international agreements. Of those, **25** were Memoranda of Agreement (**MOAs**), **28** were Memoranda of Understanding (**MOUs**), and **7** were Student Exchange Agreements (**SEAs**). The number of MOUs has remained relatively steady in the three comparison years, but in 2017 there was a significant increase in the number of MOAs established. In **2015** Ohio State established **10** MOAs, in **2016** there were **7**, and in **2017** that number grew to **25**.

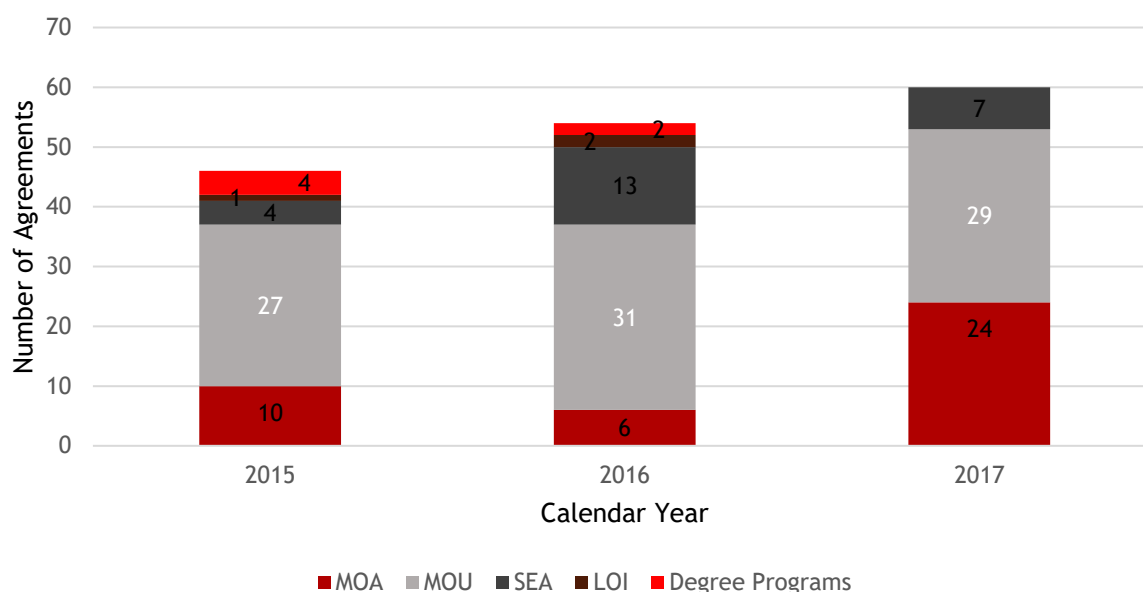

By definition, Memoranda of Agreement carry out the strategic international goals of Ohio State and provide a framework for institutional relationships. They provide a strategic advantage to Ohio State as umbrella agreements for concrete and specific activities of importance. MOAs specify activities, resources, outcomes, obligations and limitations by each partner and contain specific financial obligations.

The 25 MOAs established in 2017 and the activities made possible and carried out through them directly respond to the charge of the *President's and Provost's Council on Strategic Internationalization* in the Updated International Goals 2016 to: **Create and expand robust international partnerships.**

The charts below compare the number and types of agreements established in 2017 to the previous two calendar years (2015 and 2016).
